All My Movies Torrent (Activation Code) PC/Windows

All My Movies is a software application that enables you to keep track of your favorite movies in a simple-to-use database. The interface is clean and intuitive, made from one window with a straightforward layout. You can add a movie by its title, a DVD or Blu-ray video (optionally from the bar code) or from file. Add movies and movie information In addition, you can edit text fields (e.g. title, actors), add covers, capture and add screenshots, as well as print the movie card or selection. Furthermore, you can sort movies by title, original title, rating, date added or movie number, group them (e.g. media label, year, director), view a title list and cover thumbnails. But you can also view a wishlist, loans, unseen, overdue, series and new shows or movies. Plus, you can set up marks for a favorite list and manage advanced filters for the current database. Review and export movie details to file Moreover, you can access directories (names, friends, media locations, countries, genre, media types), as well as search for movies and bar codes, generate a playlist, suggest a movie, view statistics, export data (to HTML, CHM, plain text, Excel, PDF, image and mobile device), import information (from CSV or Excel), scan the drive for movies, update iMDB details, and more. In the "Preferences" menu, you can set All My Movies to check for updates weekly, compress the database on exit, enable automatic backup, use a batch capture function, change the interface skin and language, select the online databases to get usable information from, and others. Easy-to-use movie manager The software tool uses a moderate-to-high amount of system resources and includes a comprehensive help file with images. No errors have popped up during our tests. However, when you want to add a movie by title, you simply have to write its original title, hit the "search" button and All My Movies will do the rest. But if you immediately search for another title, the rest of the fields (e.g. director, scenario) retain the information of the first movie you have searched. You have to cancel this window and pop it up again to fix this issue. All in all, All My Movies is a very good software for maintaining your personal movie database and we strongly recommend it to all users. It

What's New In?

All My Movies is a software that allows you to keep track of your favorite movies in a simple-to-use database. Enjoy this brilliant free entertainment software that you can use for your immediate film and software collection. All My Movies has a simple and modern interface. Its intuitive and concise layout allows even the first time users to easily understand the built-in functions. Manage your personal collection. All My Movies includes a wishlist, management of shows or movies, loans, overdue and unseen, as well as statistics for your movies. Your settings also includes the possibility to listen to the audio tracks. In addition, you can also import the movies from your disc drive or device. Organize your favorite movies. You can organize your movies by date added, movie title, original title, rating and label. You can also sort them by title, release date, original title or show number. Besides, you can add a cover for your movie if you have one. Once you are done, you can either print the movie card or select to export data to Excel, CHM, HTML, PNG or PDF files. Network. You can export your movie list to an HTML file, an Excel file or a compatible file with the Data Exporter extension. Add by QR code or from files. You can also add movies by disc or by file. Additionally, you can export a list of your movies that can be printed in your PDF generator or exported to a CSS or HTML file. Add by barcode. You can also add movies from a DVD or Blu-ray barcode. Backup. You can backup your movies with an unlimited number of copies by selecting your desired ZIP file on your local hard drive or on other USB flash drives, network drives or on your Amazon cloud service. Time Counts of All Time So you want to be employed but lack the skillset you'd need for a new job, or you don't know what skills you have (but you have some). Do not worry. There is a solution for all of the above. On the newly launched Time Counts website, you can record your training time, experience, skills, and jobs, as well as what you want to do, the age you are, the income you want to make and more. Time Counts can then give you advice in terms of what you might need to learn or do next in order
