## Crystal Report Error Missing Or Out-of-date Export Dll

January 29, 2022 - Posted By: tampabay CA Forum: Last year, now all of a sudden I got a "Missing or" error message. Hi all! I have developed an application in VB6 and all my reports are in Crystal Report 8.5. I also export the report to .doc . xls files as in the previous days, but last year my report had a lot of errors (too many lines with errors) and my .dbf file is not completely filled, so I had to export it to .xls and paste it into Excel. Here's an example of the original report: Now that I've decided to export it to .xls and paste it into Excel, my reports work fine. How is this possible? I tried to create new reports (using Crystal Reports 7) but my reports failed to create .xls.
