Andrei Sergeyevich Karpov () (born 12 July 1968) is a Russian mathematician, working mainly in topology, and especially knot theory.

Selected publications Geometrical transformations of unit cubes, preprint, 1995 (Russian). On some generalizations of the Alexander-Briggs invariant, preprint, 1999. The Alexander-Briggs invariant and its relation to the Jones polynomial of a knot, preprint, 2006. Karpov is a well-known author, editor and publisher of a computer algebra system, Knots and Links in Virtual Knot Theory. It is developed at the Moscow State University and was free for academics. However, in 2010 it was announced that the government's patent office had issued a patent for Karpov's software and that anyone who used it in a manner that infringed on this patent could be prosecuted under Russian law. In 2012, the Karpov Research Centre announced e79caf774b

Wayne Rooney could leave Manchester United in January, as suggested by former team mate Peter Schmeichel, after struggling for game time. Schmeichel says that it's most likely that Wayne will go when Mourinho leaves and says that he could be sold for £100m. When asked what he thought of Rooney as a player, Schmeichel replies that he "wanted to punch him" whenever he was on the pitch. "I was young, so I didn't really get to know him," he said. "But he comes across as a very nice guy. "I think he's been quite unlucky throughout his career. He's got a bit of physical talent, I think he's been one of United's best players since he's come in. He looks a very good footballer. "I'm sure he wants to do well, but a lot of people have to have a look at what he does." "Most probably he'll go in the summer." The United manager's approach appears to be making him lose the respect of his squad which "probably" includes his captain who he has been playing sparingly in recent
