Lands Between, the story about the two worlds, where the world is divided into the lands of magic and the lands of science, was written in the year 2205. The Lands Between were created by the people of the lands of magic. The land where there is no limit on the amount of magic is called the Elden Ring. The Elden Ring is in the lands of science. In the lands of magic, people mix and play with the power of magic freely. But the problem of the Elden Ring slowly began to manifest. This created a weak spot in the defenses of the Elden Ring, which easily resulted in the loss of the lands of magic and the fall of the Elden Ring. The people who live there are the "Others" of the Lands Between. The evil person who rules the lands of magic is called the Dark Lord. The Dark Lord, who rules the lands of science, is called the High Magus. "I won't allow you to threaten the Elden Ring." "The Elden Ring is the glory of the Lands Between. I'll protect it with my own life." The people who live there are the Others, but they are also children who do not understand the truth. The Others that are in the White City, where the birth of the Elden Ring started, are the first. They are the only children who come from the Lands Between. They are also the only survivors among the Others. "Let's burn the Elden Ring of the Dark Lord!" The battle against the Dark Lord is the reason why the Others who live in the White City came here. And here, the devastation of the people who live there began to manifest. The order to raze the lands of magic was released. And the officers of the Magus Association which gathers all of the Magus who were banished from the lands of magic, came here. The Magus Association will eliminate the Elden Ring and the people who live there once and for all. By gathering a large group of Magus, the order to annihilate the Elden Ring and the people who live there will be given to Magus and distributed to the officers of the Magus Association.

Q: jQuery UI Autocomplete does not display I'm trying to use jQuery UI autocomplete and its to no avail. I have installed jQuery `$('#p_group_name').autocomplete({source:'groups.php'});` I have also included jQuery UI in my local header and in my footer as is implied by the documentation: However, I cannot seem to get autocomplete to display. Is it because I have not installed the latest version, as it is mentioned in the documentation that this feature has been added since version 1.6? A: Try adding `document.addClass("ui-widget ui-widget-content ui-corner-all");` before using the autocomplete feature. I had the same problem.
